

JELLYFISH BLOOMS ECOLOGICAL AND SOCIETAL IMPORTANCE PROCEEDINGS OF THE INTERNATIONAL CONFERENCE ON JELLYFISH BLOOMS HELD IN GULF SHORES ALABAMA 12 14 JANUARY 2000

jellyfish blooms ecological and pdf

Eutrophication (from Greek eutrophos, "well-nourished"), or hypertrophication, is when a body of water becomes overly enriched with minerals and nutrients which induce excessive growth of plants and algae. This process may result in oxygen depletion of the water body. One example is an "algal bloom" or great increase of phytoplankton in a water ...

Eutrophication - Wikipedia

Among animal phyla, the Ctenophores are more complex than sponges, about as complex as cnidarians (jellyfish, sea anemones, etc.), and less complex than bilaterians (which include almost all other animals).
