Bowlby's work but also measures current investigations against Bowlby's original prescriptions and isolates for interdisciplinary research certain still uninvestigated areas of the attachment domain limned in Bowlby's cartography.

Bowlby - ATTACHMENT AND LOSS

JOHN BOWLBY: ATTACHMENT THEORY Bowlby's Attachment Theory was a new departure in Object Relations which went on to attain independent theoretical status. Attachment Theory is built on the Object Relations principles of the primacy of the need for relationship and the relational structure of the self, and goes some way to providing objective evidence for Object Relations concepts. Bowlby argued ...
