Backscatter commonly occurs in low-light scenes when the camera's flash is used. Cases include nighttime and underwater photography, when a bright light source and reflective unfocused particles are near the camera. Light appears much brighter very near the source due to the inverse-square law, which says light intensity is inversely ...

### **Backscatter (photography) - Wikipedia**

Engineering physics or engineering science refers to the study of the combined disciplines of physics, mathematics and engineering, particularly computer, nuclear, electrical, electronic, materials or mechanical engineering.
