### **Psychological Perspectives of Helplessness and Control in ...**

The past few years have witnessed widespread acceptance of the notion that few elderly individuals are willing to stand by silently in the process of growing, and to relinquish whatever actual controls, autonomy or control beliefs they had in the past. Increasingly, old age is viewed as the dynamics

### **Advances in Psychology, Volume 57: Psychological ...**

You've likely heard about learned helplessness before. It is a cornerstone of some important theories and ideas in psychology, and even some foundational concepts in positive psychology;

however, not only is it important in the field itself, it was a relatively widely understood phenomenon outside of the field as well.
